## LOVE'S LABOUR'S LOST

Summer 1914. In order to dedicate themselves to a life of study, the King and his friends take an oath to avoid the company of women for three years. No sooner have they made their idealistic pledge than the Princess of France and her ladies-in-waiting arrive, presenting the men with a severe test of their high-minded resolve.

Shakespeare's sparkling comedy delights in championing and then unravelling an unrealistic vow, and mischievously suggests that the study of the opposite sex is in fact the highest of all academic endeavours.
